

Whether you call it a  
wintergarden, patio  
or sunroom, Breezway  
has the perfect solution for you.

Are you looking for an innovative way to enclose an outdoor area to make it more functional, regardless of what time of year it is?

## Create extra living space

Altair® Louvre Windows are the ideal choice as they open fully to allow fresh air in, yet seal tight to ensure protection from the elements.

- Give yourself more living space and a semi outdoor room, by enclosing 1, 2 or 3 walls, depending on your needs.
- Create your own sunspace that is positioned to capture the winter sun and use glass louvre blades to shield you from cool winds.
- Use Altair Louvres with timber or aluminium blades to create a screen for privacy or to shield the summer sun and still get fresh air.
- Enclose a balcony or patio to create extra living space and extend your outdoor time.
- Reduce noise to internal rooms by enclosing a balcony. The 6mm glass and good sealing of Altair Louvres helps provide a first barrier from outside noise.

## Extra Strength & Safety

Using Altair Louvre Windows with the Stronghold® System, you can provide greater safety for your family whether at ground level or high levels. The Stronghold System achieves greater blade retention with a high strength acetal pin system that locks blades into place to allow natural ventilation whilst providing extra safety.

Altair®, Stronghold®, Powerlouvre® are all trademarks of the Breezway Group of Companies.

## Altair® Louvre Windows Design Flexibility

Altair Louvre systems are designed and tested to comply with AS2047 "Windows in Buildings". Unlike many shutter systems they will stop water and wind entering the building.

Displaying superior aesthetics, Altair Louvres come in a wide range of shapes and sizes, and provide the ability to change blades depending on the season. Blade options include:

**Glass:** Enjoy scenic views while providing a sense of spaciousness or welcome warm sunlight in on cold winter days.

**Timber:** Create privacy or increase your comfort by blocking out the hot sun if required.

**Aluminium:** Crisp modern look and ensures privacy. Available in a variety of powder coated colour finishes.

Altair Louvres are available with manual or the electronic Powerlouvre® control, in aluminium or timber frames. Additional security is also available including key locks, security bars or external screens.
